

EVERYTHING IS WEAK

All Departments of the Stock Market Affected.

BOND PRICES ARE LOWER

Boom in Americans in London is Predicted.

New York, Feb. 14.—The weakness of stocks was pronounced today and permeated every department of the market. The decline was quite uniform in the general list and a few of the highly speculative specialties broke severely. There was little to report in the way of buying orders at any point and prices went off easily and rapidly. The market steadied at intervals and rallied rather feebly, but pronounced dullness followed every symptom of recovery. Few of the active stocks have escaped a net loss of a point or more and many prominent securities are over 2 points lower. The higher prices at the opening were caused by the confidence with which prices of Americans had been sustained on the London exchange during Saturday's holiday in New York. This confidence was still in evidence in London before the opening here and the international stocks showed sharp advances in sympathy, reaching nearly a point in the case of Union Pacific. These advances were of the most ephemeral character, some of them being almost wiped out in the running sales at the opening. This was particularly the case with Union Pacific stocks, in which the reorganization committee's agreement with the government over the Kansas Pacific sale seemed to bring realization. The day's movement in Metropolitan Street Railway covered a range of 144 points, the slump from the high point to the lowest being continuous and very violent, the prices giving way several points at a time. There was a quick rally of 84 points, but the stock fluctuated widely and closed a net loss over 5 points. A similar movement at the time 64 points above last Friday's close and though it reacted sharply in sympathy with Metropolitan Street Railway, it retained a substantial gain. Much talk was heard of the Cuban question during the day, but there was no specific development that offered a new motive for selling. The bears took advantage of the over-bought condition of the market, and the rather long-sustained effort to support prices to make an aggressive raid. The stock disclosed by uncovered margins induced quite a heavy liquidation. The bears had no difficulty in covering at the decline without any marked rally. The price of Southern was shown by Northwest, Kansas and Texas preferred, New York Central and Pullman. The Rubber stocks and Third Avenue were practically the only prominent securities to the list to resist the weakness.

The total sales of stocks today were 491,990 shares.

The reactionary tendency in stocks affected the bond list throughout for the first time since the recent advance was checked. Prices of bonds did not yield at once, some issues showing strength in the early part of the day, but declines were general before the close. Dealings continued on a very heavy scale. Total sales were \$4,500,000.

United States new four coupon were 1/4 per cent lower bid, and the registered and old four registered were 1/2 per cent lower bid. New four registered, 125 1/2; coupon, 125 1/2; four, 112; coupon, 114 1/2; second, 107; five registered and coupon, 115 1/2; Pacific sixes of 1899, 104.

FOREIGN STOCKS.
New York, Feb. 14.—The Evening Post's London financial cablegram says: "The stock markets were quiet and easier today, but with an absence of business. Americans opened good, especially Louisville and Nashville and Union Pacific, but then gave way on New York selling, and finally closed flat on reports of an ultimatum from the United States to Spain. This was not generally believed and barring any political news I must report a very favorable disposition in financial quarters here towards Americans. Many, indeed, are looking for a real boom. The general tendency to buy Louisville and Nashville was led by a firm which recently received a profit in trust operations in Americans. Spanish stocks were steady. Gold has fallen sharply to 175 1/2. The feeling grows that the Chinese loan negotiations are still on, but discretion prompts secrecy and to a certain extent restrains the press."

LOANS AND EXCHANGE.
New York, Feb. 14.—Money on call nominally 10 1/2 per cent. Prime mercantile paper, 3 1/2 per cent. Sterling exchange steady, with active business in bankers' bills at 4 1/2 per cent. Demand at 4 1/2 per cent. Sixty days, 4 1/2 per cent. Commercial bills, 4 1/2 per cent. Silver certificates, 64 1/2 per cent. Bar silver, 56 1/2, Mexican dollars, 5 1/2.

TREASURY STATEMENT.
Washington, Feb. 14.—Today's statement of the condition of the treasury shows: Available cash balance, \$215,910,150; gold reserve, \$185,916,643.

GRAIN AND PRODUCE MARKETS.
The following official range of prices on grain and provisions at Chicago is furnished by the Christy-Street Commission Co., Board of Trade Rooms, Seligman Block, Chicago, Ill.
